Professional Development Plan for Academic Year 2019-2020

David Trower

Part-time Instructor – Computer Information Systems and Multimedia

I.   **What I did last year for Professional Development**

- Revised IMED 1316 – Web Design I
- Revised IMED 2315 – Web Design II
- Revised ITSE 1331 – Intro to Visual Basic Programming

I am a member of the Association of Information Technology Professionals (AITP) to connect with IT professionals to interact and exchange ideas in relation to industry trends. As a member of AITP, I am able to further develop and enhance my technology skills.

I am also a member of the Education Special Interest Group (EDSIG) of the Association of Information Technology Professionals (AITP). Being a member of EDSIG allows me to interact and dialog with IT practitioners and other academic professionals in addition to keeping up with IT innovations and best practices.

II.   **Plans for this year:**

- Revise IMED 1316 – Web Design I for new HTML elements, CSS properties, and coding standards
- Revise IMED 2315 – Web Design II to update curriculum and course content
- Participate in professional development sessions

III.   **What MCC can do to help me accomplish my objectives:**

- Keep me informed of training opportunities
- Provide financial support – and time off, if necessary – for professional conferences, symposiums, and lectures.
